EDUCATION

Government College University Faisalabad (GCUF)

Expected Graduation: Sept. 2027

Bachelor of Science in Computer Science (BS CS); CGPA: 3.80 / 4.00

Jhang, Pakistan

- **Affiliated College:** Govt. Graduate College Jhang
- **Honors & Awards:** Awarded the prestigious **Punjab Educational Endowment Fund (PEEF) Scholarship**, a highly competitive government merit scholarship recognizing top-tier academic performance.
- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Database Management Systems, Computer Networks, Digital Image Processing, Object-Oriented Programming.

PROJECTS

Virtual Chemistry Lab Suite (Capstone) (In Progress)

JavaScript, WebGL, Telemetry

- Engineered an interactive 3D virtual chemistry laboratory featuring real-time acid-base titration mechanics, modular apparatus placement, and dynamic multi-angle camera views.
- Implemented an algorithmic calculation engine tracking solution pH fluctuations, temperature changes, and precision droplet-level reagent dispensation (0.05 mL resolution) with live telemetry data logging.

Custom Quadruped Robot & AI Companion System

ESP32-S2 Mini, C++, Python, Groq API

- Built and customized an open-source four-legged servo robot on low-cost hardware, programming custom motor gaits and visual status feedback in C++.
- Developed a Python desktop companion integrating speech recognition, text-to-speech, and the Groq API to power a dynamic dual-mode system (switching between an intelligent assistant and a sarcastic persona).

NotesNest – Cloud Task & Knowledge Management Platform

React, Node.js, Express.js, MongoDB

- Designed and deployed a full-scale personal workspace featuring responsive client rendering, JWT authentication, and persistent cloud database integration.

TECHNICAL SKILLS

Full-Stack / MERN Stack: React, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, REST APIs, WebGL

Languages: C/C++, Python, JavaScript (ES6+), SQL, MATLAB

Hardware & IoT: ESP32-S2 Mini, I2C/SPI Protocols, Servo Actuators, Sensor Interfacing

Developer Tools: Git, GitHub, Visual Studio Code (VS Code) Postman, Linux / Virtual Machines

EXPERIENCE

Logistics & Freight Dispatch Coordinator

Feb 2024 – Aug 2024

Remote / US Operations

J&B Expedite Logistics

- Utilized industry load boards (DAT, Truckstop) to negotiate and secure high-paying freight loads for US-based commercial carriers.
- Handled intensive English-language communications, route optimization, and real-time operational routing and coordination.

LANGUAGES

English: Professional Working Proficiency (Medium of Instruction certificate obtainable upon graduation)

Urdu: Native

CERTIFICATIONS

- **Google AI Professional Certificate** (In Progress)
- **Google AI Essentials** (Coursera)
